A Message from Mayor Nelson Santos

“If you do not step forward, you will always be in the same place.”

The Municipality of Kingsville is in a fortunate position that is representative and home to a diverse population of residents, businesses, agriculture and industry. Often providing a balanced approach can be challenging where there are so many interests and thus why the Council and Administration behind the Corporation of the Town of Kingsville have continually supported visioning for both the short and long term strategies for our community's future.

In Kingsville, it is recognized that our community is never at a standstill, and is constantly learning, growing, and under development as we continue to mature from the days of amalgamation. As we keep moving forward with our positive momentum, we continue to keep an eye on our vision and goals on a regular basis. That's why our today's council has committed to modernize our Municipality's Strategic Plan and has set forth an updated vision based on the messages and input we have received over the past year from the public. This vision and mission for our term of council and for those that follow serves as both a guideline and a target and provides a live record of its progress and updates.

There is something about having our voices of business, our residents and our community, participate and commit to 'visioning' for our future success. Each one of us offers some important insight and support in helping identify key components of Kingsville as well as guide the municipality in ultimate goal setting and making important decisions that include investing in key infrastructure and programs with our goals focused on establishing an environment that will grow success; that will grow investment; that will grow and support our communities.

These initial goals and service plan targets are just the starting point. As this new strategic plan matures, it will serve as a unique tool that will then outline key projects, programs and direction for our town. It will also begin to bring into focus the necessary financial estimates and costs associated to them as part of our financial mindset and fiscal responsibility. Combined, this will provide for a vision that is reflective of our community and realistic to achieve.

Yours truly,

Nelson Santos
Mayor
