

Ecolo's ACU.15 Vapor Delivery System is a complete odor control package designed exclusively for marijuana greenhouse operations.

Installed at or near exhaust fans, vapor is created and introduced directly, or through the optional diffuser manifold ring, into a column of exhaust air. Odor control systems are programed and wired into exhaust fan operations providing ideal "point source" treatment and odor control solution cost efficiency (works only when needed). When the exhaust fans are running the water-free particles of XStreme™ Vapor Solution are able to easily mix and collide with malodor molecules in columns of air associated with fan or vent exhaust.

Odor Control Vapor Solution

Part number:

50-XST-8016-P4-1000 (4L)

50-XST-8015-P4-1000 (4L)

50-XST-8023-P4-1000 (4L)

Appendix D-1

Odor Control Vapor System Kit **ACU.15**

FOR MARIJUANA GROWING FACILITIES

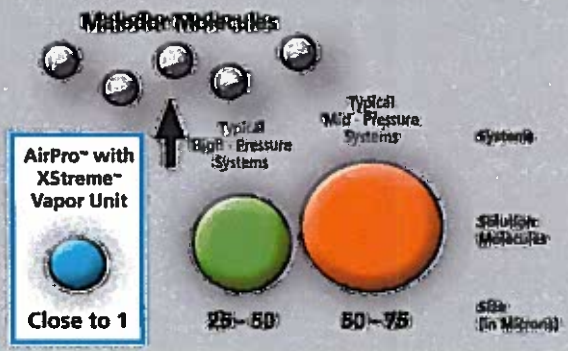

Features and Benefits:

- Complete package for easy installation
- Independently Controlled Multi-Zone Operations
- Adjustable Programming for Usage Control
- Waterless Solutions
- Operational in Cold Climates
- Tamper Proof Enclosure (Optional for Outdoor Use)

**Kit includes: Compressor/control unit, vapor satellite unit, odor control solution and optional diffuser manifold ring.*

Vapor Is Better Than Misting:

Compared to conventional misting, the high concentration of the ultra-fine XStreme™ solution particles increases the opportunity for collision and absorption of the malodor molecules.

DS-ACU.15 02/18

Ecolo® AOC-E150-TV is a self-contained odor control system that emits waterless odor control solutions in the form of vapor. The feature rich oscillating vapor cannons are built for stand alone odor control operation and can be used to replace much larger water-based odor control systems.

PRODUCT SPECIFICATIONS

| Construction | <ul style="list-style-type: none">• Control panels - stainless steel• Chassis - hot dipped galvanized steel | |

*Shipping weight (905lbs/410kg) includes vinyl cover + 1 case (16L) of vapor solution

The AirStreme® AOC-E150-TV Vapor Cannon uses industry-proven odor neutralizers common to Ecolo's AirSolution™ line but contain 0% water and are highly concentrated. The waterless XStreme™ Vapor Solutions are designed to function in below-freezing temperatures to combat odor complaints all year round. Unlike masking agents, it works through the process of odor counteraction in which the malodorous molecules react with the aroma particles to form a new, larger molecule with a lower vapor pressure to reduce the odor intensity.
