Subject: Cross walks

Hi Kim, You were the only counsellor that I talked to at election time so I am contacting you on an idea I have for the town.

I see in the Windsor star some stories about painting the cross walks with different designs. I think we should do this in Kingsville as well but with Geese only. See the attached picture, we could have the high School make some stencils with 3 or 4 different Geese in flight and paint them white only on our cross walks going north sometimes and south as well. We could paint them close to downtown, church's schools restaurant or where ever there is a lot of foot traffic.

Just an idea, thanks.
