The Elkay EZH2O® Bottle Filling Station delivers a clean quick water bottle fill and enhances sustainability by minimizing dependency on disposable plastic bottles. Surface mount design - ideal for installations with limited wall depth. Sanitary no-touch sensor activation with automatic 20-second shut-off timer.

Features:

Touchless, sensor-activated design for use in limited wall depth applications.
• Fill rate is 1.5 GPM.
• Visual filter monitor with LED filter status indicator for when filter change is necessary.
• The 3,000-gallon filter is certified to NSF 42 and 53 for lead, Class 1 particulate, chlorine, taste and odor reduction.
• Green Ticker informs user of number of 20 oz. plastic water bottles saved from waste.
• Able to pair with a remote chiller.
• Laminar flow provides clean fill with minimal splash.
• Silver ion antimicrobial protection on key plastic components to inhibit the growth of mold and mildew.
• Real drain system eliminates standing water.
• Rated for indoor use.
Outdoor Bottle Filling Stations ideal for educational campuses and recreational areas. Powder-coated exterior over a corrosion-resistant stainless steel type-316 base material to provide protection from the elements.

**Features:**

- Corrosion-resistant base material provides the ultimate protection from the elements.
- Heavy-gauge construction with tamper-resistant screws that resist stains and corrosion.
- Laminar flow provides clean fill with minimal splash.
- Freeze-resistant options available.
- Available in 12 stunning finishes.
- Ideal for outdoor use.
