Reference Public Meeting regarding
Woodbridge Estates Subdivision Feb 24/2020

- 2015 Cottam Water Study map of Cottam
- Existing Lagoon System not shown on map
- Cottam Woods Subdivision renamed to Woodbridge Subdivision.
- Cottam Woods. " was now in South development area 20 homes recently built
- 2015 Water Study represented many, many non-existent homes.
- development areas North South East + West.
- I took Water Study Map of 2015 to Ken ^{BINSE} ~~Bense~~
- 30 yr employee Bosfield Phoe, yrs of dealing with maps of Cottam / Bosfield N.
- Mr Bense was lost so much new developm
- Said I should bring this map to Council Larry's attention
- Question:
- Has Kingsville Administration or other requested name change regarding Cottam Woods / Woodbridge Subdivision ~~prior~~ prior to 2015?
- 2015 Administration examined Water Study Report with non existing development.
- 2019 Watson Report based on Services Administration Low balled Cottam base numbers. (USERS)
- 10 yr forecast makes us look pathetic next 10 yrs.

Question

How does the difference represented between these 2 studies, actually help Planning do their job better?

Watson Report 2019

- Administration forecast regarding Cottam
- forecast 31 homes were estimated Cottam was going to build next 10 yrs
- after 10 yrs our customer base number is 574
- Feb 14/2011 last Public meeting involving Cottam Project Assessment.
- base number of 574 was proven to be incorrect
- Ratepayers money is used to pay for Reports They should be based on Factual information
- 2012 meeting Council not receiving correct & accurate information (issue) first time brought forward
- Actions Kingsville took 2007 regarding Sewage problems resulted in waste back ups.
- We needed maintenance we got a load of gravel forcing waste into my Neighbors to the East & more
- Requested maintenance through Freedom Act maintenance back to 2005 start of Problems
- Much needed maintenance May 2007 pumping Station's extremely bad condition (information should of happen long before it did) SUBMITTE
- Registered Letter Address to Kingsville Council dated May 13 2014 withheld from Council

- Former CAO told Council (former) sewage back ups were the result of kids shutting down pumping Station for 2nd time.
- Developer, through builder materials in pumping Station Well.
- Registered letter contained information as to how this was incorrect & inaccurate.
- Actually impossible.
- Actions Kengzville took ²⁰⁰⁷ caused back-ups.
- Cottam was made to look like broke pigs bad shape & no money. ^{upon Council get info}
- 2 bank accounts remain to be real issues
- Still Provable. ~~we~~ We have been used & abused.
- Council has experts from Ministry of Environment
- Experts going to all three Sewage Facilities doing reports. Sewage is taking very serious
- Cottam Lagoons: Mark Smith & Al Peterson have done reports through Sanni Office
- Windsor Office goes into Kengzville Lagoon every yr as Working Lagoons
- There is a Host of reasons why you should be receiving KLV Plant reports done by MOE
- There is a number of issues with MOE reports, being withheld from Council.

I am not against Development

I've been questioning Mayor Santo's actions & Integrity

Designated bank Account for Cotton Lagoon
should of remained with Cotton Sewage

- existence of Account Still provable
- We should of had a plant (sewage) put this way.
- Kingsville has Stiffled Cotton/Hosfeld N.

We have a huge problem Sewage money
collected not staying
with Sewage
