June 12, 2020

Mr. Robert Brown, Manager of Planning Services Planning & Development Services Department The Corporation of the Town of Kingsville 2021 Division Road North Kingsville Ontario, N9Y 2Y9

Dear Mr. Brown:

RE: <u>Application for Site Plan Control, SPA-08-2020 1233 COUNTY ROAD 18</u> <u>ARN 371134000000125 & 371134000003200; PIN: 751450363 & 751450248</u> <u>Applicant: Jeremy Capussi</u>

The following is provided as a result of our review of Application for Site Plan Control Amendment SPA-08-2020. The revised site plan proposes a relocation of the bunkhouse and a new entrance at Grahame Side Road.

<u>DELEGATED RESPONSIBILITY TO REPRESENT PROVINCIAL INTEREST IN NATURAL HAZARDS</u> (PPS) AND REGULATORY RESPONSIBILITIES OF THE CONSERVATION AUTHORITIES ACT

The following comments reflect our role as representing the provincial interest in natural hazards as outlined by Section 3.1 of the Provincial Policy Statement of the *Planning Act* as well as our regulatory role as defined by Section 28 of the *Conservation Authorities Act*.

The above noted lands are subject to our Development, Interference with Wetlands and Alteration to Shorelines and Watercourses Regulation under the *Conservation Authorities Act* (Ontario Regulation No. 158/06). The parcel falls within the regulated area of the Melville Bruner Drain, Lane Drain and 4th Conc. Branch Of Lane Dr. (kunch Dr). The property owner will be required to obtain a Permit and/or Clearance from the Essex Region Conservation Authority prior to any construction or site alteration or other activities affected by Section 28 of the *Conservation Authorities Act*.

We advise the applicant confirm no changes in the stormwater management plan with the new proposed relocation of the bunkhouse and entrance at Grahame Side Road as approved in permit 542 - 19.

WATERSHED BASED RESOURCE MANAGEMENT AGENCY

The following comments are provided in an advisory capacity as a public commenting body on matters related to watershed management.

SECTION 1.6.6.7 Stormwater Management (PPS, 2014)

Essex Region

Conservation Authority

sustaining the place for life

Mr. Brown June 12, 2020

ERCA has concerns with the potential impact of the quality and quantity of runoff in the downstream watercourse due to the proposed development on this site. ERCA recommends that stormwater quality and stormwater quantity will need to be addressed up to and including the 1:100 year storm event and be in accordance with the guidance provided by the Stormwater Management Planning and Guidance Manual, prepared by the Ministry of the Environment (MOE, March 2003) and the "Windsor-Essex Region Stormwater Management Standards Manual".

We therefore request inclusion of the following conditions in the Site Plan Control Agreement:

- 1. That the developer undertakes an engineering analysis to identify stormwater quality and quantity measures as necessary to control any increases in flows in downstream watercourses, up to and including the 1:100 year design storm, to the satisfaction of the Municipality and the Essex Region Conservation Authority.
- 2. That the developer installs stormwater management measures identified above, as part of the development of the site, to the satisfaction of the Municipality and the Essex Region Conservation Authority.
- 3. That the developer obtains the necessary permit or clearance from the Essex Region Conservation Authority prior to undertaking site alterations and/or construction activities.
- 4. That the "Special Provisions for Storm Water Infrastructure" as outlined in the attached memo, are appropriately addressed to the satisfaction of the Municipality and the Essex Region Conservation Authority.

PLANNING ADVISORY SERVICE TO MUNICIPALITIES - NATURAL HERITAGE POLICIES OF THE PPS

The following comments are provided from our perspective as a service provider to the Municipality on matters related to natural heritage and natural heritage systems as outlined in Section 2.1 of the PPS. The comments in this section do not necessarily represent the provincial position and are advisory in nature for the consideration of the Municipality as the planning authority.

It is our recommendation to the Municipality that an Environmental Impact Assessment is not required because the location of the subject property is physically separated from the natural heritage feature by existing development or infrastructure. Therefore, we can advise the Municipality that this application is consistent with the natural heritage policies of the PPS.

FINAL RECOMMENDATION

ERCA has no objection to this application Site Plan Control Amendment.

Mr. Brown June 12, 2020

If you have any questions or require any additional information, please contact the undersigned.

Sincerely,

Fernando Cirino, MUD Resource Planner /fc
