

Dear Mayor Santos and Councillors of the Town of Kingsville

A group of local business owners that represent many businesses within the town have met numerous times over the last few months to discuss the Covid 19 situation and to determine what we feel is needed to help support small business in Kingsville. We are looking to discuss and partner together to help us build up from our losses this past year and to come out stronger after we are past this pandemic

We have determined our top 5 and would like to present them to you during our council declaration on Monday. Our number one concern is Tourism and our secondary concern Covid19 Relief support.

Sincerely

Local Business Owners in the Town of Kingsville
