

July 20, 2021

To Mayor Santos and all Council member,

We are kindly requesting an exemption in Queens Valley Subdivision from the requirements of the revised development manual for Phase 2A and 2B to not put in sidewalks prior to receiving building permits. Sidewalks will be installed after the gas lines are put in as we are required to put sidewalks throughout the subdivision. We will adhere to the new development manual in all future phases now that we are aware of the new by law.

Sincerely,

Pino Porrone
