Dear Mr. Brown:

RE: Application for Site Plan Control SPA-12-2021
1921 ROAD 3 E
ARN 371129000026951; PIN: 751460189
Applicant: BULL MARKET FARMS INC

The following is provided as a result of our review of Application for Site Plan Control SPA-12-2021. The proposal is to construct two additions of 2.59 ha (6.41 ac.) each to the existing greenhouse along with 440 sq. m (4,736 sq. ft.) warehouses to each addition. The expansion will require a new storm water pond at the rear of the property.

DELEGATED RESPONSIBILITY TO REPRESENT THE PROVINCIAL INTEREST IN NATURAL HAZARDS (PPS) AND REGULATORY RESPONSIBILITIES OF THE CONSERVATION AUTHORITIES ACT

The following comments reflect our role as representing the provincial interest in natural hazards as outlined by Section 3.1 of the Provincial Policy Statement of the *Planning Act* as well as our regulatory role as defined by Section 28 of the *Conservation Authorities Act*.

The above noted lands are subject to our Development, Interference with Wetlands and Alteration to Shorelines and Watercourses Regulation under the *Conservation Authorities Act* (Ontario Regulation No. 158/06). The parcel falls within the regulated area of the Fleming Wigle Drain. The property owner will be required to obtain a Permit and/or Clearance from the Essex Region Conservation Authority prior to any construction or site alteration or other activities affected by Section 28 of the *Conservation Authorities Act*.

WATERSHED BASED RESOURCE MANAGEMENT AGENCY

The following comments are provided in an advisory capacity as a public commenting body on matters related to watershed management.

Mr. Brown
April 27, 2021

SECTION 1.6.6.7 Stormwater Management (PPS, 2020)

ERCA has concerns with the potential impact of the quality and quantity of runoff in the downstream watercourse due to the proposed development on this site. ERCA recommends that stormwater quality and stormwater quantity will need to be addressed up to and including the 1:100 year storm event and be in accordance with the guidance provided by the Stormwater Management Planning and Guidance Manual, prepared by the Ministry of the Environment (MOE, March 2003) and the "Windsor-Essex Region Stormwater Management Standards Manual".

We therefore request inclusion of the following conditions in the Site Plan Control Agreement:

1. That the developer undertakes an engineering analysis to identify stormwater quality and quantity measures as necessary to control any increases in flows in downstream watercourses, up to and including the 1:100 year design storm, to the satisfaction of the Municipality and the Essex Region Conservation Authority.
2. That the developer installs stormwater management measures identified above, as part of the development of the site, to the satisfaction of the Municipality and the Essex Region Conservation Authority.
3. That the developer obtains the necessary permit or clearance from the Essex Region Conservation Authority prior to undertaking site alterations and/or construction activities.
4. That the "Special Provisions for Storm Water Infrastructure" as outlined in the attached memo, are appropriately addressed to the satisfaction of the Municipality and the Essex Region Conservation Authority.

We have received a copy of the Stormwater Management Report dated September 29, 2020 by BairdAE. Further stormwater comments will be provided at the time of Section 28 application.

PLANNING ADVISORY SERVICE TO PLANNING AUTHORITIES - NATURAL HERITAGE POLICIES OF THE PPS, 2020

The following comments are provided from our perspective as an advisory service provider to the Planning Authority on matters related to natural heritage and natural heritage systems as outlined in Section 2.1 of the Provincial Policy Statement of the *Planning Act*. The comments in this section do not necessarily represent the provincial position and are advisory in nature for the consideration of the Planning Authority.

We note that the subject property is adjacent to (within 120 m of) a natural heritage feature that may meet the criteria for significance under the PPS. Section 2.1.8 of the PPS, 2020 states – "Development and site alteration shall not be permitted on adjacent lands to the natural heritage features and

Mr. Brown
April 27, 2021

areas identified in policies 2.1.4, 2.1.5 and 2.1.6 unless the ecological function of the adjacent lands has been evaluated and it has been demonstrated that there will be no negative impacts on the natural features or on their ecological functions.”

Our information indicates that the subject property may support habitat of endangered species and threatened species. As per Section 2.1.7 of the PPS, 2020 – *“Development and site alteration shall not be permitted in habitat of endangered species and threatened species, except in accordance with provincial and federal requirements”*. All species listed as endangered or threatened (aquatic species, plants, mammals, birds, reptiles, amphibians, etc.) as well as their related habitats, are protected under the Ontario *Endangered Species Act*. Prior to initiating any proposed works on this property, it is the proponent’s responsibility to contact the Species at Risk Branch of the Ontario Ministry of Environment, Conservation & Parks (MECP) to ensure all issues related to the *Endangered Species Act* are addressed. All inquiries regarding the *Endangered Species Act* should be made with Permissions and Compliance Section of the MECP (e-mail address: SAROntario@ontario.ca).

FINAL RECOMMENDATION

With the review of background information and aerial photograph, ERCA will require a Stormwater Management Plan to the satisfaction of ERCA and the Town of Kingsville. The applicant must obtain a Section 28 permit and/or clearance from ERCA.

If you have any questions or require any additional information, please contact the undersigned.

Sincerely,

Vitra Chodha, E.P
Resource Planner
