In 2021, meetings were held with Fire Officers as to what type of Rescue do we require serving and protecting our citizens/visitors to our community. In the past, our Rescue vehicles were not equipped for any firefighting operations, strictly for transporting Fire Officers, firefighters and equipment. Based on these discussions and research into options, it was decided that a Rescue/Pumper type of apparatus would better address broader firefighting needs and a lwas posted. Safetek. Emergency Vehicles Ltd. was the sole manufacturer to submit a proposal to this tender.

Funding was approved in 2021 for the amount of \$500,000.00 in the Capital Fleet Replacement and then carried over to the 2022 Capital budget and again approved by Council.
