Good afternoon George,

In response to the above referenced circulation, there have been discussions between our respective offices indicating that we support the changes as identified by Dan Lebedyk in those discussions, as per his attached email. At this time, we have no further comments regarding the rezoning. However, should there be any changes or questions regarding this, please contact James Bryant, *Director of Watershed Management Services* ([jbryant@erca.org](mailto:jbryant@erca.org)).

Kind regards,

Sydney Richmond
