**Re: Oakglen Subdivision, Kingsville**

During the course of construction at the above project, personnel from our office carried out site reviews and final inspection. These reviews were conducted following the procedures described in the Professional Engineers Ontario Guideline for Professional Engineers Providing General Review of Construction.

Baird AE is not aware of any outstanding deficiencies in the construction. Our firm is of the opinion that the engineering work is in general conformity with the drawings and specifications prepared.

Baird AE recommends that all works be assumed by the town, and surface asphalt be placed on one year maintenance.

Trusting you will find the above satisfactory; however, if you have any questions please contact the undersigned, I remain.

All of which is respectfully submitted,

---
