1. RE: Motion 18-2017

RECOMMENDATION:

To receive this presentation as information; and to provide Council with a copy of the presentation for review and the following recommendations:

- 1.) that Council should determine and evaluate the reasons (tourism, economic development, etc.) to implement an ATV by-law;
- 2.) There should be plenty of opportunity for public feedback for the by-law proposal and education on the vehicles, specifically on what type of vehicles allowed, licensing, and safety requirements;
- 3.) Council could move forward with a small pilot project involving off road vehicles and evaluate the project once completed.
