**Subject:** RE: File16-568 FW: Concerns from 1574 County Rd 34 Mr. Del Ciano

Hi Ken

As per your request I contacted Michael Del Ciano today at approximately 4:30 Pm. I explained that presently there are two outstanding projects dealing with the Esseltine Drain. The immediate project that Michael called the Town on is for the replacement of a farm culvert situated over the Esseltine Drain. For this project Mr. Del Ciano's land is situated within the affected drainage area and accordingly his land has been assessed for certain portions of this project. I indicated that the capital cost of the new culvert is being paid for totally by Bert Mucci. However any future maintenance would be paid 78 % by Bert Mucci and the 22 % balance by all affected landowners. In this case if maintenance work of \$100,000.00 were performed the Del Ciano lands would be assessed \$17.00 dollars.

Accordingly Michael was fine with this .
